

We thank the many individuals and community groups who have contacted us seeking to help. FCS is accepting donations of homemade masks and will make them available for staff and patients who wish to wear them for added comfort and protection over their surgical mask or for use outside of the clinic to help conserve critical supplies.

Mask donations can be placed in marked bins outside of the entrance of Florida Cancer Specialists at 4420 Sun N Lake Blvd in Sebring.

This link shows the proper way to wear a mask as well as how to make a mask if you would like to give it a try: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>

If you need additional information, please let me know.

Best Regards,

Kim Prescott
